

On February the first, the pastors who participated in OIKOS Latino\* (OL) met to evaluate and explore the future. This is their report.

### **1. Evaluation of the experience in OL:**

- It was a magnificent experience.
- The teachers made me think and rethink about my ministry.
- I enjoyed the authority of the speakers.
- I am processing all that I received in order to implement it.
- The recorded conferences have been very helpful to me.

### **2. Suggestions:**

- It will be better to have simultaneous interpretation using headphones.
- It will be good to film the conferences.
- We need more.

### **3. Results:**

- Six pastor participation in the training sessions.
- All pastors are implementing the concepts they captured.
- The following are the results of the teachings:
  - Number of cells before OL. 30
  - Number of cells after OL. 45
  - We expect to start 8 cells in the next months.

### **4. Plans:**

- We plan to meet regularly in order to learn from each other.
- Pastor Acuña is in charge of exploring the possibility to have in Houston one of the speakers that are going to be in Miami in May.
- Campo & Daniel are in charge of exploring the possibility to have more training and conferences for a bigger audience with brothers Neighbour and Beckham.
- Next meeting will be on March the second.

*Campo Londoño*

*OIKOS Latino is a multi-session training process for developing cell-celebration churches. Congregations were enlisted by UBA Consultant Campo Londoño with the training presented by Ralph Neighbour and William Beckham and translated into Spanish. The audio sessions are available in the UBA online Media Center at <http://www.ubahouston.org>*
